

Gasko & Rhopac Fabricated Products

Initial Design

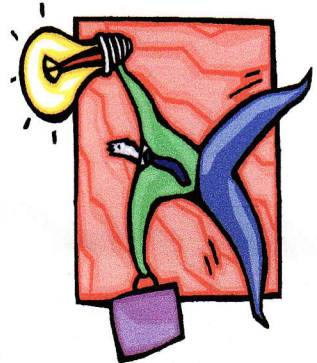

Customer Requirements

Market Requirements

- Need rapid prototyping requiring various options
- Want to avoid costly tooling charges and delays
- Want to get to market quickly and win market share
- Require samples with production-like dimensions

Then let us provide you with what you want, sooner than when you thought you could get it at a cost that you did not believe you could get it for

- Maximum part size 30" X 20"
- Maximum part thickness $\frac{3}{4}$ "
- Sample part tolerance +/- .010"
- Require a DXF file in order to reduce programming time
